Male patient consent for physical examination

As part of your assessment, you may be required to have an examination.

For Men, The penis and scrotum will be visually inspected and manually examined. An internal digital rectal examination is usually required to access the prostate and pelvic floor muscles.

You can request another person to be present in the room during the examination eg your partner, other family member, friend or our practice nurse/staff. You will have your privacy maintained by a sheet and/or curtain.

Please inform the doctor if you do not wish this to be performed.

Without consenting to this examination it may not be possible to fully diagnose your condition.

I DO / DO NOT consent undergoing a physical examination (please circle)
